# About SPAV

---

The vision is “To achieve academic excellence in architecture and planning through innovating, creating, acquiring, and disseminating knowledge using sustainable local and global practices and enhancing the quality of society through a responsibly built environment”.

SPA Vijayawada is one of the three institutes of national importance under the Ministry of Education (MOE) of the Government of India, offering education in the fields of planning and architecture. The School has distinguished itself and grown as a role model in the fields of planning and architecture while at the same time fostering quality research in these domains.

SPA Vijayawada is ranked one of the best institutes in the country by the National Survey and Ranking, and India Today Group. The "green" rated campus is an example of architectural excellence with state-of-the-art infrastructure. Faculty members are constantly involved in various academic and developmental activities of the school.

# About MBEM

The course of MBEM is designed holistically to accommodate the latest trends in the construction industry, both in academics and in the profession.

The course is intended to imbibe and amplify the knowledge of the construction industry through a series of lectures and practical case studies while also encouraging the students to acquire knowledge in avant-garde construction techniques as well as other allied topics such as Real Estate Management, Building Facilities Management, Finance Management, Occupational Health and Safety, Contracting and Legal Documentation, Value Engineering, and Human Resource Management are among a plethora of other topics.

The paramount focus is on developing professionals who are competent enough to complete complex projects from inception to completion with proficient analytical, interpersonal, and software skills while coordinating with the stakeholders and various consultants.

# From The DIRECTOR'S DESK

It is my pleasure to invite you all to the placement activities of SPA Vijaywada. Since its inception in 2008, the institute has been committed to the training of responsible, ethical, and professional architects and planners. As an institute, SPAV has never compromised on its mission to achieve academic excellence through innovation and research, and the same is reflected in the unwavering spirit and continued endeavor of our faculty and students, who have earned national and international accolades for the institute.

For all the eleven degree programs (two undergraduate and nine postgraduate), the curriculum is designed in such a way that the students are exposed to the practical world through study tours, field visits, hands-on workshops, seminars, group discussions, interactions along with professionals, and the alumni, and host activities to equip them with all industry-fit skills and knowledge.

We are excited to release our placement brochure, which details our efforts toward guiding the career paths of our students. On behalf of the entire SPAV Fraternity, I would like to show my gratitude to all the past, present, and future recruitment partners for their participation and the continued trust in our students.

**Prof. Dr. Ramesh Srikonda**  
Director, SPA Vijayawada

# From The HOD'S DESK

As the Head of the Department of Architecture at the School of Planning and Architecture, Vijayawada, it is with great pride that I present this placement brochure for our first-year Master of Building Engineering and Management students. This brochure is not just a reflection of their academic journey; it highlights the remarkable skills, dedication, and innovative spirit that our students bring to the field. With access to state-of-the-art facilities and a faculty renowned for their expertise, our students engage in rigorous training that prepares them to tackle real-world challenges. They emerge as critical thinkers, adept problem solvers, and effective collaborators—qualities essential for success in today's dynamic industry.

We take pride in the vibrant academic environment at our institution, fostering creativity and practical skills through hands-on projects and collaborative learning. As these talented individuals embark on their professional journeys, I am confident that they will contribute significantly to the field of architecture and construction.

I invite you to explore this brochure and discover the promising potential of our students, who are ready to make a meaningful impact in the industry.

**Dr. Srinivas Daketi**  
HOD, Dept. of Architecture,  
SPA Vijayawada

# From The CO-ORDINATOR'S DESK

I would like to warmly welcome all the prospective recruiters to the Student Placement of MBEM, SPA Vijayawada. The market today, demanding continual technology enhancements, the industry requires potential youngsters with outstanding analytical skills, open mindset and innovative approach towards problem solving.

I am glad to convey that our MBEM programme is home to such bright young minds. Our students, who are admitted in the programme join after a very tough entrance procedure, undergo rigorous coursework consisting of courses on various subjects. Our next batch of students is all set to graduate soon and they are looking for opportunities that are appealing to their intellect and would help them realize their full potential.

We look forward to welcoming you to MBEM programme at SPAV.

**Dr. Nagaraju Kaja**  
Program Co-Ordinator MBEM,  
Dept. of Architecture,  
SPA Vijayawada

# Course At A Glance

## En Voyage:

The course is designed with a vision of uniting and strengthening the domains of Architecture, Civil Engineering, and Management into an all-innovative Building Engineering And Management. The programs are consistently updated to reflect the latest initiatives.

## Curriculum Pertaining to the Industry:

Guest lectures, workshops, and site visits are all featured in the MBEM curriculum in order to keep up with this growing industry. Some of the most prestigious professionals offer their grace to the department. Students must complete a summer internship to acquire valuable insights regarding the profession before embarking on their careers.

## Research and Innovation Oriented Program:

The curriculum encourages students to acquire knowledge in state-of-the-art construction techniques and other related aspects such as Materials, Construction Finance, Quality Management, Contracting, Safety and Legal Issues, Value Engineering, Project Planning, Human Resource Management, Advanced Technologies (BIM, Primavera, MS Projects), and Operational Research.

The course emphasizes the importance of today's construction needs for a rewarding management career in the infrastructure construction industry.

# MBEM Course Structure

The curriculum encourages students to acquire knowledge in state-of-the-art construction techniques and other related aspects such as Materials, Construction Finance, Quality Management, Contracting, Safety and Legal Issues, Value Engineering, Project Planning, Human Resource Management, Advanced Technologies (BIM, Primavera, MS Projects), and Operational Research. It emphasizes the importance of today's construction needs for a rewarding management career in the infrastructure construction industry.

## 1<sup>st</sup> Semester

- Project Planning and Scheduling Studio
- Construction Management, Tools, and Techniques
- Quantitative Methods and Operation Research
- Construction Technology, Materials, and Methods
- Advanced Building Services
- Construction Materials and Technology Laboratory

## 2<sup>nd</sup> Semester

- Project Cost and Contract Management Studio
- Project Cost Management
- Research Methodology
- Construction Occupational Health and Safety Administration
- Construction Contracts, Specifications, and Legal Issues Building
- Facilities Management

## SUMMER INTERNSHIP & TRAINING

## 3<sup>rd</sup> Semester

- Project Procurement Management Studio
- BIM-based Construction Management
- Project Finance and Risk Management
- Project Administration and Organisational Behaviour
- Construction Procurement and Inventory Management
- Dissertation

## 4<sup>th</sup> Semester

- Thesis
- Quality and Human Resource Management

# Our Expertise

In the institution, the students are encouraged to think critically about a wide range of disciplines and act wisely throughout the course, individually and collaboratively. Students are exposed to new contexts or constraints through the studio's real-life projects, preparing them to apply their knowledge and understanding in practice.

The students are proficient with widely used applications in the business, including MS Office, Project Management tools (MS Project, Primavera, BIM), and Architectural Software. The students are exposed to various critical site activities by way of coordination with the respective consultants and vendors, thus gaining valuable insights into present scenarios.

## Sectors We Best Fit In

PROJECT MANAGEMENT

PROJECT DEVELOPMENT SERVICES

VALUE ENGINEERING

PROCUREMENT MANAGEMENT

REAL ESTATE MANAGEMENT

CONTRACT MANAGEMENT

STRATEGIES BUSINESS DEVELOPMENT

RESEARCH

FINANCIAL MANAGEMENT

DEVELOPMENT RESEARCH

VALUATION AND IRM

DESIGN MANAGEMENT

ADVISORY AND CONSULTING

The batch visited Vijayawada and Hyderabad to study real-world environments, gaining crucial insights into local socio-economic, cultural, and environmental factors. Divided into four groups, each group focused on a different project type—commercial, educational, or residential—at selected sites in the two cities.

These site visits allowed students to analyze the specific conditions influencing their projects and apply those observations to the planning process throughout the semester.

By integrating their findings into tailored project plans, students were able to connect theoretical knowledge with practical applications, encouraging collaboration, critical thinking, and hands-on learning that will contribute to their professional development.

# The Class of 2026

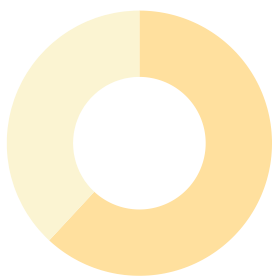

Students from different parts of India, each bringing their own culture and ethnicity, have come together at SPAV to learn about many aspects of Building Engineering and Management as well as to experience the culture at the campus. The esteemed faculties have instilled in the students the values of leadership, efficiency, and teamwork which they hope to bring to the table to achieve promising results in all student endeavors.

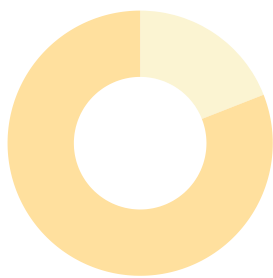

# Batch Profile

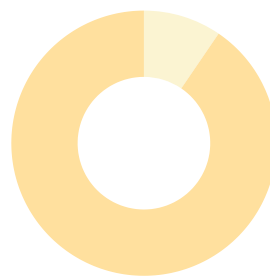

With a dynamic mix of experienced and emerging talent, our students bring a strong passion for project management and related fields. Equipped with diverse educational backgrounds and exposure to various regions, they are well-prepared to tackle projects across the country. Their adaptability, eagerness to learn, and ability to stay current with rapidly evolving industry trends make them invaluable assets to any organization.
